LOA	15,42 m	Sails as sloop	144 m <sup>2</sup>
-----	---------	----------------	--------------------

LWL	12,22 m	Height above waterline	23 m
-----	---------	------------------------	------

Beam	4,6 m	Engine	160 hp
------	-------	--------	--------

Draft	2,2 m	Fresh water capacity	1600 l
-------	-------	----------------------	--------

Displacement	24 ton	Fuel capacity	1670 l
--------------	--------	---------------	--------

Boat design category	A		
----------------------	---	--	--

The boat is in perfect condition! Is ready for sale in fully operable mode for immediate use.

The hull of the boat is professionally polished, batteries are newly exchanged, antifouling has been made and also the boat was deeply cleaned.

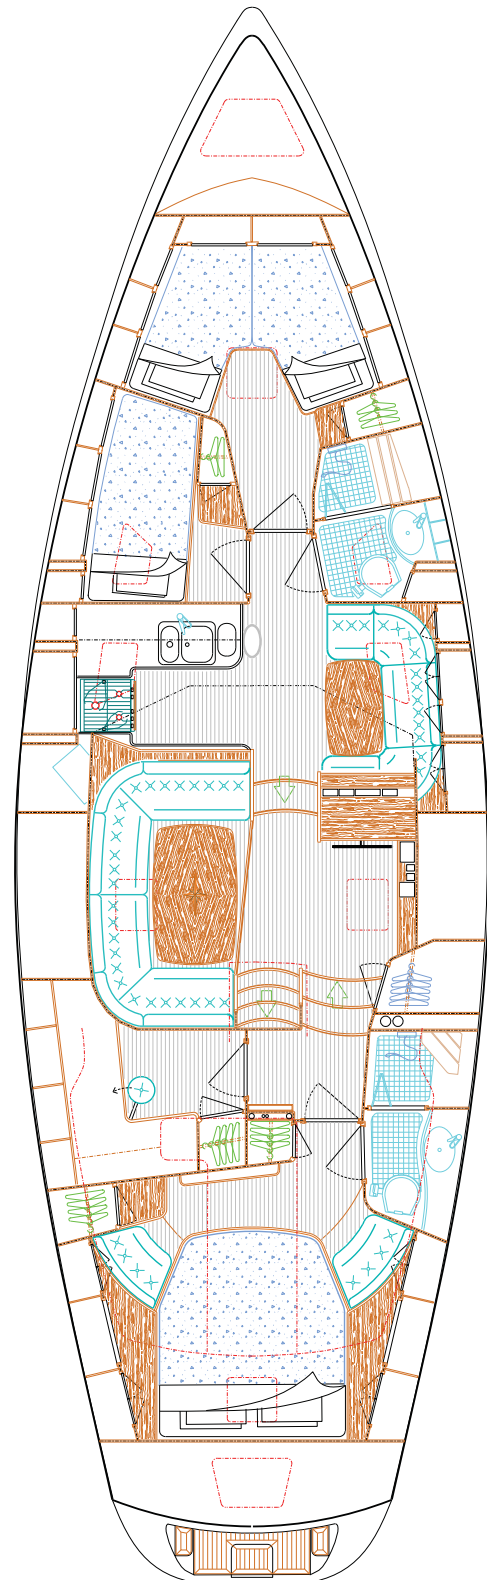

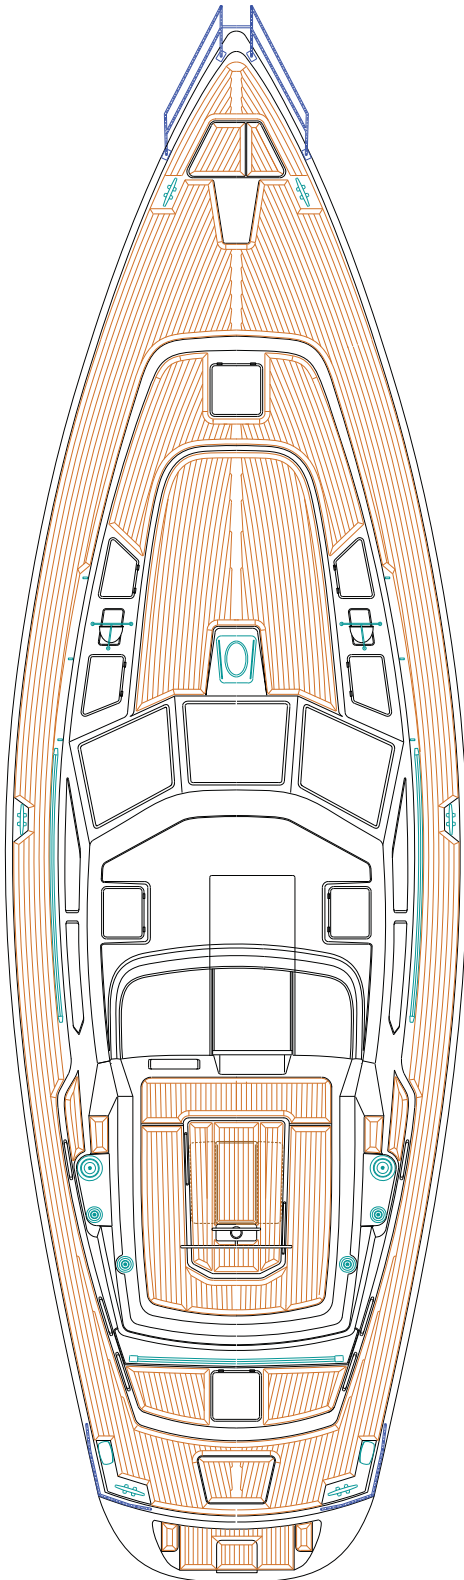

There is also superior equipment on the boat. The list can be found on page 8.

There are moored many Nauticat vessels at the pier, where the boat is berthed. If the owner decides to leave the boat at anchorage ground, he can participate on maintenance costs.
